

Brihan Sahoo

Email: sbrihan763@gmail.com | Phone: +91 7602828033 | Location: Kolkata, India

Professional Summary

Software Engineer specializing in backend development and cross-platform mobile applications. Experienced in designing secure, scalable, and high-performance systems using Spring Boot, Java, and Flutter. Strong understanding of distributed systems, real-time communication, and ACID-compliant architectures. Committed to writing clean, maintainable code and building production-grade applications.

Technical Skills

- Languages: Java, Dart, JavaScript
- Backend: Spring Boot, Node.js, REST APIs, WebSocket, STOMP, SockJS
- Frontend/Mobile: Flutter, React.js, Next.js, React Native
- Databases: MySQL, MongoDB
- Cloud & Tools: AWS, Firebase, Git
- Core Concepts: ACID Transactions, Authentication & Authorization, Real-Time Systems, Clean Architecture

Work Experience

Freelance Software Developer | Jan 2026 – Present | Remote

Developed full-stack applications for clients including business management systems and grocery store platforms. Designed scalable backend architectures, implemented secure authentication systems, and built responsive user interfaces. Delivered production-ready applications with admin dashboards and cloud deployment.

Key Projects

- **Banking Backend System (Spring Boot)**: Built a secure, ACID-compliant banking backend supporting account management, transaction processing, and authentication with high concurrency handling and data integrity assurance.
- **Real-Time Chat Application**: Developed a WebSocket-based chat system using Spring Boot, STOMP, and SockJS for scalable publish/subscribe messaging and low-latency bidirectional communication.
- **Smart Farming AgriTech Platform**: Designed a mobile application providing real-time monitoring, AI-based crop assistance, and data-driven agricultural insights for farmers.

- **Social Media Flutter App:** Implemented authentication, profile management, real-time chat, and media storage using Firebase services.
- **Coding App (Flutter):** Built a mobile coding platform integrating online compiler APIs and OCR-based code extraction from images.

Education

Bachelor of Engineering (B.E.) in Information Technology | 2024 – 2028 Jadavpur University
