Career Objective

Motivated and detail-oriented Information Technology student at Jadavpur University, passionate about developing efficient, user-friendly applications. Skilled in Flutter app development and backend integration using Firebase, with an eagerness to learn and contribute to innovative projects in mobile and web development.

Education

Bachelor of Engineering (B.E.) – Information Technology

Jadavpur University, Kolkata

Expected Graduation: 2028

Technical Skills

Languages	Java, Dart, JavaScript, SQL, C,C++,Python
Mobile Development	Flutter (UI/UX, State Management, API Integration)
Backend & Database	Firebase Authentication, Firebase Storage, Realtime Database, Node JS, SpringBoot
Tools & Platforms	Git, VS Code, Android Studio
Other Skills	REST API development, Cloud Storage integration, AI App deployment

Projects

Social Media Flutter App – Implemented user authentication, profile management, and real-time chat using Firebase. Integrated image upload and storage with Firebase Storage.

Ferm App (Dart + Node js) – Built a user friendly, easy to use app for farmer with realtime AI chat bot, crop image recognition tool that can give instant answer from backend(Node js).

Coding App (Flutter) – Built an app for coders to code in mobile/smartphones. I integrated an online api for getting output and also implemented an option to put code from a picture/screenshot to the realtime text editor.

Achievements & Activities

- Developed multiple full-stack mobile applications as personal and academic projects.
- Participated in coding contests and hackathons at the university level.

Strengths

- Strong problem-solving skills and logical thinking.
- Ability to learn and adapt to new technologies quickly.
- Good communication and teamwork skills
- Integrate AI feature in apps.
